

MANY CASES IN THE CIRCUIT COURT

Grand Jury Releases Several Men Held For Murder.

CONSIDERABLE WORK HANDLED

Several Unimportant Cases Carried Over—The Common Law Docket is Nearly Finished—One Appeal Taken.

The November term of the circuit court for Alachua county was continued yesterday, Judge J. T. Wills presiding.

The ejectment case of Palmer vs. Parker, in which W. H. Palmer brought an action against Fannie Parker, was of some length. The evidence consisted of a record of the proceedings and judgment of a justice of the peace. The record was objected to by the attorney for the defendant, and the court sustained the objection, which resulted in a verdict by the jury, on direction of the court, of not guilty. The case will be taken to the supreme court.

The following cases in assumpsit were disposed of: Waterman & Co. vs. E. J. Baird, judgment for \$218.84; Edward Anderson vs. E. J. Baird, judgment for \$1,200; L. N. Pearce, judgment for \$220.95.

The Albion Mining and Manufacturing Co. vs. Riley & Millard, replevin, resulted in a judgment for the plaintiff for 25 tons of phosphate rock. A similar case by these same parties also resulted in a like judgment for the plaintiff.

In the case of J. R. Eddins vs. Sam Cook, in assumpsit, a judgment was obtained for \$760.

The following who were before the grand jury charged with murder were discharged, no true bill being found: March Deboe, Ed Kite, Will Harris and Dan Johnson.

Several unimportant cases were continued for the term.

The common law docket is nearly finished up and the term will not be so long as some anticipated at the opening of the session.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

ECONOMIZING IN PRINTING.

Government Office Not Turning Out as Much Work.

Washington, Nov. 17.—Acting Public Printer Ricketts, in an interview published today says:

Judging from the volume of work now being turned out at the government printing office, economy has struck the government departments hard. We are now printing about as much stuff as we did five or six years ago. The amount has fallen off greatly within the last three months and during my connection with the office has never been at so low a point as now.

Mr. Ricketts attributed the falling off in requests to printing to the influence of the president and the determination of the heads of the departments to cut down the printing bills which had grown to enormous proportions.

Mr. Ricketts thought the investigation of the Keep commission and that more recently the Landis committee, who had much to do with the now existing conditions.

It has been necessary in some instances to lay off employees of the office who were working temporarily. This, with sick leaves, has reduced the force, and there are perhaps less men and women at work in the printing office this month than at any other time for several years. Mr. Ricketts said it did not look as though it would be necessary to employ many extra printers this winter.

WOMAN AWARDED BIG ALIMONY

Important Decision is Rendered by an Ohio Judge—Lawyers Get \$6,000.

Cincinnati, Nov. 17.—Deciding that a separation was warranted under all the circumstances, alimony to the amount of \$250 a month and attorney's fees of \$6,000, were ordered by Judge James B. Swing, in this city, today in the suit of Mrs. Madden for alimony pending the decision of the Kentucky courts on the suit for divorce between John E. Madden and herself. The alimony is to be secured to Mrs. Madden permanently, but the Ohio court holds that the children are within the jurisdiction of the Kentucky court and that the Ohio court cannot decide as to their disposition. It is further decided that Mrs. Madden's bona fide residence is in Cincinnati, and that she could, therefore, maintain a suit for divorce in the Ohio courts which have jurisdiction in her case.

Judge Swing believed a reconciliation was seemingly impossible, and therefore a separation was warranted, and the wife's support imperative.

No Shortage in Clerk's Books.

Augusta, Ga., Nov. 17.—If the inspectors who examined the books of Edward C. Bearden, the late money order clerk of the Augusta postoffice, have found any shortage, there has been no statement to that effect. Last night Assistant Postmaster E. B. Hook in reply to a question, said that he knew of no such finding, and made the statement that he knew of no reason why the inspectors would decline to make such a statement, though, as a matter of fact, the result of the examination would be made known to the postoffice department in Washington. Miss Mamie Bearden, sister of the late E. C. Bearden, now lies at the point of death at her home here. She has been in ill health ever since the shock caused by her brother's suicide.

Men Absorbed in Hot Metal.

Philadelphia, Nov. 17.—During the inquest held in the cases of John F. Orkin and Joseph Garcia, laborers, who were killed at the Midvale Steel works on Nov. 10, it was testified that the two men had entered a pit and that 80,000 pounds of hot metal poured from a leak and completely absorbed them. Not a trace of the bodies of the men was discovered. The steel company has decided to take about 8,000 pounds of the steel from the place where the men were last seen and have it buried out of respect for the dead workmen. The coroner's jury rendered a verdict of accidental death.

Molders Quit Their Jobs.

Decatur, Ala., Nov. 17.—The conference held here by Curtis and Dolan, representatives of the Louisville and Nashville railroad, and a committee of molders was in session all day, the railroad refusing to meet the demands of the molders. The molders asked for their time, which was given them. Everything is quiet and most of the men have left for other foundries. No trouble is looked for.

Sidney, N. S., Nov. 17.—News has reached here from St. Pierre, Miquelon, yesterday that a duel was recently fought between Louis Legass and M. Capron, former chief justice of the island. The weapons used are said to have been pistols and the distance 45 paces. Neither party was injured. The duel was the result of an old election feud.

Reduction on Cotton Tariff.

Toronto, Ont., Nov. 17.—The tariff commission considered a variety of applications yesterday largely of a personal character. A reduction in the duty on white cotton from 25 per cent to 15 per cent was asked by the Ontario Cutters' association. The American Wall Paper company pressed for a reduction in the tariff.
